-- 200-level field courses are intended as interim courses as a student moves from Econ 110 into the 300-level core courses. Once the student has completed Econ 380, he or she is strongly encouraged to take the 400-level rather than the 200-level field courses.
-- Students should NOT take both a 200-level and a 400-level course with the same last two digits (e.g., Econ 275 and 475), although they ARE encouraged to take the 300- and 500-level theory classes (e.g., Econ 380 and 580).

Minimum residence requirement is 21 hours in the major.
Courses used for the major CANNOT also be used toward a minor or second major.
** Students who plan no formal education beyond the bachelor’s degree should take other courses that will enhance their employment opportunities. Consult a faculty advisor for suggested minors, majors, & skills. Students are encouraged to take Student Development 317: Managing Career Transitions, in their junior or senior year.
